Touch The Dark (Cassie Palmer Book 1)

Synopsis

Cassandra Palmer can see the future and communicate with spirits—talents that make her attractive to the dead and the undead. The ghosts of the dead aren't usually dangerous; they just like to talk a lot. The undead are another matter. Like any sensible girl, Cassie tries to avoid vampires. But when the bloodsucking mafioso she escaped three years ago finds Cassie again with vengeance on his mind, she's forced to turn to the vampire Senate for protection. The undead senators won't help her for nothing, and Cassie finds herself working with one of their most powerful members, a dangerously seductive master vampire—and the price he demands may be more than Cassie is willing to pay....

Customer Reviews

Cassie Palmer has a problem. In fact Cassie has quite a few, a psycho mobster vampire who also happens to be her former guardian has found her after 3 years of being on the run; her clairvoyant abilities seems to be getting more vivid and disturbing; her Billy Joe, her ghostly sidekick keeps disappearing at most inconvenient times and her former roommate isn't quite what he seems. But this is just the start for Cassie things have started to shift in the supernatural ability and it seems that

several factions want a piece of her and she is never quite sure who to trust. What I love about this series is that it grabs you as soon as you start reading and drags you straight into the action. There is almost no let up; hence the warning at the top of the review. Cassie is flung from one dire situation to another. This book also gives you a lot of information all at once and on top of everything else going on it can make it an intense read. The world the Karen Chance has created though is really interesting, full of vampires, weres and mages all kind of living in harmony. And once you have gotten past the initial information overload you can appreciate the complex world the Ms Chance has wrought. Another great thing about this book is the characters. It is told from first person POV and I know this can put some readers off, but I find that I quite like this in UF, especially if I like the person whose head I am inside, like I do with Cassie. Cassie was a great character, she wasn't your usual tough chick who makes pithy sarcastic comments as she kicks the crap out of people, instead she makes pithy sarcastic comments as she runs away or as she is being almost beaten by the enemy. As for the sexy-dangerous vampires, there are a few to pick from, there is Mircea, brother to Dracula, the seemingly urbane and calm master vampire, so long as you don't piss him off; Louis Cesar (my personal fave) with the long auburn hair and the lethal fencing skills and Tomas hot, sexy and likes to rip people hearts out with his bare hands. Choices, choices! This is definitely a series I would recommend to those who love Urban Fantasy, it was funny, interesting and action packed and I can't wait to get to the next one

This is a series I've come back to time and time again, so if you love urban fantasy, paranormal romance, and hilarious, sassy heroines Cassie Palmer is the right series. It's a constant whirlwind of fighting, sexy vampires, angry mages, and carnality in all its forms. Cassie is unlike most heroines in that she has no training and no real knowledge at the start--just a sarcastic mouth and a knack for getting herself into and out of danger. Along the way vampires, fae, ghosts, and Cassie's ability to see the future come into play as she time travels back and forth. This book is about Cassie trying to figure out how she got saddled with the most powerful clairvoyant position in the non-human world, the Pythia, and whose leading this horse at all. Well worth the action-packed ride and to start off a series that will suck you in.

I have this series in paperback but wanted the same on my kindle $\tilde{A}f\hat{A} \tilde{A} \hat{A},\tilde{A} \ddot{E}oe\tilde{A} \hat{a}$ -I actually love this series that much and would be happy to recommend it to anyone. The books get more interesting as you read them and the situations that Cassie finds herself in actually had me laughing out loud like a loon cause I was on the train in front of strangers. I give this book five shining stars

ÃfÃ Ã ÅÃ ÆœÃ Å

This book opens with a bang and keeps on going! Karen Chance creates a unique world of Vampires, War Mages, Werewolves, Fairies and Time travelers. The Cassandra Palmer series lets you discover this world along with the heroine, so it seems a bit chaotic but it is absolutely worth the time. Cassie will become a good friend and so will some of the other characters-and boy does that change from moment to moment!

Set in an alternate America, where vampires, mages, fey, and demons exist along side the mundane humans, this is a good start to a fun and quirky series.I've re-read the whole series, as well as it's spin-off - starring Mircea's damphir daughter - several times, and still enjoy it every time.

This is a new to me series that I am really enjoying. Cassie is a very likeable heroine who becomes the reluctant Pythia whom every supernatural group seems have problem and is trying to capture or take her put. Great world building with lots of action, adventure, and some romance.
