The Illusion Of Us: The Suppression And Evolution Of Human Consciousness

Synopsis

In the Second Edition of *The Illusion of Us*, we travel down the rabbit hole of knowledge to uncover the secrets behind consciousness and the intelligent design behind reality itself. How did we become so lost and disconnected to the world and universe around us? Perhaps the answer can be found by understanding our multidimensional consciousness and true identity. Could humanity have complete amnesia of a past Golden Age due to cataclysms on Earth which wiped out most of the evidence from a lost time period? The renowned philosopher Plato leaves behind compelling evidence for this theory in both the *Timaeus* and *Critias*, linking the lost civilization of Atlantis and its destruction. It's time to finally discover all that we have forgotten and piece together the incredible history that preceded us. Were the gods of mankind simply myth or are we missing an important piece of the puzzle that connects all the way back to the stars...From the guarded writings of the Nag Hammadi Library to the cuneiform tablets of the *Enuma Elish* and *Atrahasis*, *The Illusion of Us* connects the entire story and provides a way to free the shackles from Darwin's Cave. The Truth will set you free.

Customer Reviews

An amazing book....I want more please!!

All men should have this knowledge. It is explosive, but presented in a humble manner by this author ... smoothly and cohesively written.

MR. LaCroix has simplified the definitely complex explanation of our beginnings as a human being:-)! Excellent read. Well done

One of the best books written today!

This book is amazing. For those who want a better understanding of our real history as a species, this is the book for you. Well done!

This was a very short book that basically touched on everything that is currently being talked about on the world scene, but I did enjoy it.

Very well written! super informative and opened my eyes on a lot of ideas

Very amazing read. I've learned so many things from different researchers about the things going on in the world and its history. Matthew used the puzzle pieces of it all and brilliantly puts them together in this book. I recommend this to anyone with the will to open their minds.
