Forensic Accounting For Dummies

Synopsis

A practical, hands-on guide to forensic accounting Careers in forensic accounting are hot-US News & World Report recently designated forensic accounting as one of the eight most secure career tracks in America., Forensic accountants work in most major accounting firms and demand for their services is growing with then increasing need for investigations of mergers and acquisitions, tax inquiries, and economic crime. In addition, forensic accountants perform specialized audits, and assist in all kinds of civil litigation, and are often involved in terrorist investigations. Forensic Accounting For Dummies will track to a course and explain the concepts and methods of forensic accounting. Covers everything a forensic accountant may face, from investigations of mergers and acquisitions to tax inquiries to economic crime What to do if you find or suspect financial fraud in your own organization Determining what is fraud and how to investigate Whether you're a student pursuing a career in forensic accounting or just want to understand how to detect and deal with financial fraud, Forensic Accounting For Dummies has you covered.

Customer Reviews

I am not an accountant, but this year was tasked with managing the money for a few family

members who are now unable to manage their own money. In my quest to figure out how to do that the correct way, I found this book. It was a very helpful and easy to understand overview that showed me what I need to know now and where I should go next.

Excellent

Was referred to this guide when I got Auditing for Dummies. Forensic accounting is a fascinating subject, almost like a mystery novel. Can't put it down. Subject seems to be well-covered and authors provide great detail. Too bad there are so many examples and case studies.

A must read book... great for those who are into accounting. Clear explanations and is a easy reading. Try is... you won't regret it.

Good book dummies makes all hard definitions easy

as expected

greet price fast shipment

It starts topic from scratch.
