## Customer Reviews

"It's goofy, off-kilter fun, ideal for fans of shows like Adventure Time and Steven Universe." (Publisher's Weekly) "With rampant whimsy and cheerful silliness, expect this to hit funny bones with laser accuracy." (Kirkus) "Middle grade readers who like their sci-fi and superhero stories zany, crazy, and with lots of ironic humor will enjoy these adventures." (Kat Kan, Booklist) "Wry, accessible humor, often conveyed without text...and

bright, chipper colors hearken back to Sunday comics. It's an odd concept, but an irresistible one; this is going to be a hit across a wide range of readers." (The Bulletin of the Center for Children's Books)"Big-hearted, dotty fun for kids from eight to 11 and pretty much everyone else." (The Georgia Straight)

Doug Savage is the creator of the popular comic *Savage Chickens*, which he has been drawing and posting online every weekday since 2005. Summary: Silly Fun  
From the creator of the "Savage Chickens" webcomic comes an all-new three-story graphic novel. The stories deliver on the absurd premise of a moose who shoots laser beams from his eyes. The webcomic is, at most, a few panels on a single page. Books are longer, multi-page affairs. I was worried that this book would be similar to a collection of Dilbert comics --- only a collection of short jokes. My fears were unfounded. Savage makes a successful transition to this new medium.  
(1) The strange but insightful humor of the webcomic is retained and remains fresh  
(2) The art, plot, and dialog both flow well without appearing to be single-page gags  
(3) Splash pages surprise the reader as pages are turned  
(4) The use of color is not overdone and does not distract  
This is definitely a comic book that can be enjoyed by both children and adults. I could cite examples from the book or the webcomic, but that would not do the book justice and would only spoil the fun.

Laser Moose is my favorite character from the *Savage Chickens* comic strips. This book includes multiple stories and teaches the reader valuable lessons in dealing with toxic mutants and reflective surfaces. One suspects that the protective power of antlers may be slightly overstated, although without having had personal experience, how can one judge? I am eagerly looking forward to many sequels and the ultimate defeat of evil woodland cybercreatures.

Awesome. So nice to see Doug continuing to develop his comics. I love supporting the "little guy."

Doug you have outdone yourself with this book! Well done sir! This is a fun romp about with a Laser Moose and a rabbit that you will love. The art is great and the stories are even better.

This is a fun, silly adventure book about a moose with laser eyes that he uses to save others from perilous situations. My 9 year-old grandson enjoyed it very much!

Granddaughter enjoys these stories

There is a moose that roams the woods: waiting, waiting, waiting. Lasers from his eyes, ice water in his veins. This is not your father's gun-toting weapons-grade elk. This is LASER MOOSE! Laser Moose will take you on the wildest ride. A ride in a convertible PT Cruiser with a modified Ferrari engine! Then you'd have the looks and the power ... just like Laser Moose. There are great stories in this here book and the characters got the best kind of dialogue that I like. I'm recommending this to my book club and I think it would be a natural TV show on one of the more sophisticated networks where you could show the laser moose laser (with his eye lasers) other evil creatures heads off without fear of reprisal from a censor.

"Do you ever get tired of watching out for danger, Laser Moose?" "Do you think danger ever gets tired of being dangerous?" I read this first in our household, and then desperately wished I'd read it aloud at storytime instead, so my son and I got to crack up together. But how could I have known it would be so good?! He ended up loving it as much as I did. The friendship between Laser Moose and Rabbit Boy is priceless. The Aqua-Bee-Bear is terrifying. Frank the deer carrying his leg around is macabre but hilarious. I'm not sure what we'll do when we have to give back the library copy, because if we only buy one, we'll be stealing it from each other. It's the kind of book that if you don't think it's funny, you'll probably think it's really dumb, but good people can disagree. :)
