New Yorker's Brooklyn MiniMap

Synopsis

The New Yorker's Brooklyn MiniMap shows all of Brooklyn, as well as Manhattan's Financial District. With all the streets and subway stations shown, it's an incredibly useful map that will fold down to the size of your wallet. Lamination throughout help protect it from wear and tear in your pocket. From Williamsburg to Fort Greene, this map covers all the hottest parts of the city, and the small size means that there's never any reason to leave it at home. If you live in Brooklyn, this might be the only map you'll ever need.

Customer Reviews

Opus Publishing, LLC was founded in 2003 by a group of New York City residents, including a city planner and a former bike messenger, who were dissatisfied with the quality of New York City maps currently on the market. Maps from Opus Publishing are designed to be absolutely accurate and up-to-date, filled with information that is useful for residents and visitors alike.

I'm staying in Brooklyn for the holidays and thought it would be helpful to have a nice map for riding the bus. I realize now that this is the "New Yorker's" map. If I knew street names and already had a feel for the area, it would be nice to have this map with all of the street-level details, but as a tourist, I just need to get from Point A to Point B without drawing attention to myself with giant maps! This map folds up to be very "mini," but unfolded, it is quite large. And bright yellow! It screams "LOOK AT ME! I DON'T KNOW WHERE I'M GOING!" PLUS, it is double-sided so you have to turn between front & back to follow some routes, which is more work than I need to be doing when I'm standing in the middle of a neighborhood I'm unfamiliar with. Not an ideal map for me. I returned it.

This is a fantastic map! Not only for it's portability, but it's clarity and strength of the material. I grew up with LOTS of maps, and I still love them. This fits into a small purse, pocket of jacket or vest, but does not crumple. It doesn't need any wi-fi or battery power. Plan to buy more...even for friends that live in Brooklyn.

Perfect map to navigate in Brooklyn!!MUST HAVE TO TRAVEL!!

I have never written a negative review before, but the size of this map is a joke. It's so small I didn't even see it in the box. The street names are microscopic. I could have gotten the same amount of detail from a map of the five boroughs. What a waste of money.

Another nice mini-map. Easy to read. Fit into my pocket. Waterproof.

Nice tiny map for walking around Brooklyn. While I could use an app on my smartphone, this foldout map allows looking at a larger area at the same time. Seems accurate.

Overall this map is awesome, the only complaint I have is that the lower Manhattan subway stops are not identified by name, just blue dots, which can make navigating the financial district a little tricky, but the fact that all streets are labeled does help with this. Don't hesitate to buy.

It's a tiny little thing. cut in double sided. Great for tourists
