Customer Reviews

Overall a great book about taking risks and making it in the media business. There is a ton of insight into how Craig has become successful and how he carries himself even to this day. I think there is something to be said about his straight up attitude and never backing down. Craig really drives home that once he or anyone says something, you have to defend it to the grave - therefore if you're going to make a statement it a) must be true b) be what you believe. Simple truths that many individuals struggle with everyday. In a world where we all think we have to be friends with everyone, Craig shows us examples of forming your own opinion of someone and sticking to it; even if its a negative one. Book is short and a bit scattered. As others mention, there is little to no insight on WFAN but rather just how we got to the WFAN.

I bought this book both because I am a fan of the Boomer&Carton program and because Craig Carton is a fellow Syracuse University alumni. The book was a very funny tale of his early life and early career and it was a quick and fun read. I laughed out loud plenty of times! It was much better than I expected (and I mean that in a nice way) but I bought a discounted copy (only \$3.58 for a new book) and it was worth that money.

I enjoyed reading about his career path and actually laughed out loud once. Not enough insight into his present job at WFAN. It's a very quick read and if you have no idea who Craig Carton is, don't waste what free time you might have reading it.

Good book, good price, shipped fast. Thanks

An interesting look into the morning DJ at the fan I enjoy listening to him every morning and the banter with Booker is a blast

Very little substance, very little about the inner workings of the radio business, especially his experiences at WFAN. His life before that, frankly, is just not that interesting.

Loved reading all about Craigs life and his career but I would have loved more detail on how he got places. More on his family and his relationship with his wife. Still a big fan though.

Local guy wrote a fast read funny book about his broadcasting rise and fall. If you are from NY or NJ and you listen to his show: you will love it
